dated Nov. 22d, says that according to the latest information received from Versailles, incessant exertions are directed to the formation of a second outer line of investment, to cover the operations of the inner line.

The strategy of General D'Aurelles, it is understood at Versailies, bas been met by a counter movement, with a centre at Orleans. General D'Aurelles had extended his lines both north and south, intending to enclose the Germans on both flanks. The latter have executed similar movements, falling back at the same time towards Paris.

General D'Aurelles' line is now said to extend from Etampes through Vendome, Orleans, and Bronges, to Nevres. His main body rests along this line. While it is feared that a large section of his force has passed north, toward Everux, his line also extends from Orleans to Angerville, and in a triangle, whereof Vendome, Orleans, and Augervine form soon be submitted at versained.

The German line extends from the basis of which the principle of territorial cession will be excluded, territorial cession will be excluded. Orleans, and Augerville form points.
